TECHNICAL & INTERPERSONAL SKILLS

Languages: Python, JavaScript, HTML, CSS, Java, C++

Libraries and Frameworks: React, Express.js, Django, jQuery, Bootstrap, Semantic UI, Bulma

Interpersonal skills: Communication, Collaboration, Creativity, Analytical, Quick Learner

EXPERIENCE

BP

Houston, Texas

UX/UI Design Intern

05/2023 - 08/2023

- Independently conducted UX research on bp's Helix navigation system, collaborating with UI/UX design peers globally through interviews and tree testing with Optimal Workshop.
- Research findings were presented to the design team in the Houston office and were subsequently utilized to recreate the navigation system of the Helix site.
- Rotated through five design disciplines—product/service design, design engineering, digital content design, UX research, and design operations—gaining valuable insights into each area and establishing connections with professionals.
